

Darshan Patil

Software Engineer | Full Stack Developer | MERN Stack Developer

📞 D162005 | 📞 91 8454813873 | ✉️ darshanmpatil16012005@gmail.com | 🌐 Darshan-linkedin | 📍 India

Summary

Computer Science fresher with hands-on experience building full-stack MERN applications, 3D web interfaces with Three.js, and real-time systems with Socket.IO. Passionate about delivering production-ready, user-focused software.

SKILLS

Languages : JavaScript (ES6+), C, C++, Python

Frontend : React.js, Vite, Tailwind CSS, Bootstrap, CSS Modules, GSAP, Three.js, SCSS

Backend : Node.js, Express.js, (RESTful APIs, JWT, Socket.IO, CRUD Operations), Flask

Databases : MongoDB, MySQL, Firebase Firestore

Tools : Git, GitHub, VS Code, npm, Postman, Firebase, Vercel, Render, ESLint

Projects

College Katta – Study Material Management System 🔗

[\[Live-Link\]](#)

React • Vite • Node.js • Express.js • MongoDB • Socket.IO • JWT • Bootstrap • Material UI • Axios

A production-deployed, full-stack study material platform built for college students, featuring file management, admin controls, and real-time collaboration.

- Engineered a **MERN-stack platform** with role-based access control, enabling students and admins to manage, upload, and organize study materials efficiently.
- Implemented **JWT authentication** with protected routes and a dedicated admin dashboard, securing all user data and file operations.
- Integrated **Socket.IO real-time chat**, allowing users to discuss topics instantly without page reload, improving collaboration experience.

NetViz3D – Network Visualization 3D 🔗

[\[Live-Link\]](#)

React • Vite • Three.js • React Three Fiber • Zustand • Tailwind CSS • GSAP • Framer Motion

An interactive 3D web application that visualizes computer networking concepts — OSI layers, network topologies, packet flow, and device configuration — making complex theory tangible.

- Developed a **3D network visualization** interface using **Three.js**, **React Three Fiber**, and **Drei**.
- Built **topology simulation**, **packet movement**, **OSI layer visualization**, and **AI chatbot-based** commands.

Linux OS (Portfolio) 🔗

[\[Live-Link\]](#)

React.js • JavaScript • HTML5 • CSS3 • Tailwind CSS • SCSS • npm • rnd

Linux-inspired portfolio website with desktop-style UI, terminal interactions, and structured project data.

*Designed a **Linux-themed-UI** with desktop windows, app, responsive layouts, and terminal-style interactions.*

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

2022 – 2026

Mumbai University

India

ACHIEVEMENTS & HACKATHONS

- **1st Place** – Code-O-Logy (Pseudo-Code Competition), CSI.
- **3rd Place** – Code-O-Logy (Bug Hunting Competition), CSI.
