SKILLS AND EXPERTISE

- HTML, CSS, JS (Expert)
- C-programming (Expert)
- C++, Python (Good)
- MERN Stack (Good)
- Learning DSA in C++

LANGUAGES

- English (Proficient)
- Marathi (Native)
- Hindi (Fluent)

EDUCATIONAL

Pursuing Bachelor of Computer Science & Engineering
Mumbai University | 2022 – 2026

- Konkan Gyanpeeth College of Engineering

PROJECTS

College-Katta Study Material Management System

- Developed a full-stack MERN application that serves as a centralised platform for students and admins to share and organise academic materials. The project features a secure, role-based access system, a real-time chat, personal file storage, and a user dashboard, enhancing my skills in full-stack development and database management.

AI Mail Generator

- Team Project using HTML, CSS, JavaScript, Python, Flask, Gemini AI. Developed an AI-powered email generator. Utilized full stack technologies: HTML, CSS, JavaScript (front-end), Python, Flask (back-end). Integrated Gemini AI for generating emails. Enhanced problem-solving and teamwork skills through collaboration and troubleshooting.

MovieINFO

- Developed a responsive movie and TV show discovery application using React. The project leverages the TMDb API for fetching data, Redux for state management, and Firebase for user authentication and managing a personalised "favourites" list. This project honed my skills in modern frontend development, including API integration and building dynamic, data-driven user interfaces.

ACHIEVMENTS & HACKATHONS

- 1st Place – Code-O-Logy (Pseudo-Code Competition), CSI.
- 3rd Place – Code-O-Logy (Bug Hunting Competition), CSI.
